This was mainly due to 1,257 million yen in gain on sale of building and land of consolidated subsidiaries in Europe, and 459 million yen in others. The Company recorded 2,333 million yen of gain on sale of property, plant and equipment as an extraordinary income in the consolidated fiscal year ended March 31, 2024. \*4 The NTN Group carries out grouping of assets. With regard to manufacturing assets, any plants etc. coming under managerial accounting business classifications are deemed to be the smallest unit creating cash flow. With regard to Head Office and business-use assets are grouped as corporate assets and the assets no longer used are grouped by individual asset.

In the case of the assets shown in the following table, there was no prospect for future use in the consolidated fiscal year ended March 31, 2024, and the previous consolidated fiscal year and no possibility of recovery was found for the estimated period of future cash flows. For these reasons, 4,168 million yen of impairment losses in the consolidated fiscal year ended March 31, 2024, and 1,609 million yen of impairment losses in the previous consolidated fiscal year were recorded as the extraordinary loss. The recoverable amount was measured by using the net realizable value or the value in use. The recoverable amount was measured by fair value less cost to sell or value in use, and zero for assets that could not be sold or otherwise converted. The fair value less cost to sell was estimated based on real estate appraisal standards, etc. The value in use is calculated by using a discount rate of mainly 11%, net of tax for future cash flows for each business segment.
