

Compact & Ecology

NTN Technology: Supporting environmental performance

At NTN, we take maximum advantage of our superior technology in pursuing the greater improvements in fuel efficiency that are required in order to realize a sustainable society and in working towards the creation of safer and more comfortable automobiles.

Based on the keywords “Compact & Ecological”, each and every automotive part made by NTN supports the enhancement of environmental performance, safety, and comfort, as we pave the road for a sustainable future in our automotive society that is appropriate for both humans and the environment alike.

環境性能を支えるNTNの技術

持続可能な社会の実現のために求められるさらなる燃費の向上、そしてより安全でより快適なクルマの追求。NTNの各自動車部品は“Compact & Ecology”をキーワードに環境性能・安全性・快適性の向上をサポートし、未来に向けて人にも地球にもやさしいカーライフを拓いていきます。
